

Checklist for Stage 1 Registered Report Submissions

Complete details can be found in [Preparing Your Manuscript](#)

- The submission may be in PDF, Word, WordPerfect, Postscript, RTF, LaTeX, or Text format.
- The authors and title on the submission form must match those in the separate title page and article files. The article file should not include a title page.
- Preferred reviewing editor(s) must be specified on the submission form. Excluded reviewing editors may also be included.
- Preferred and excluded reviewers may be specified on the submission form.
- Cover letter. Must confirm:
 - The anticipated timeline of the proposed research.
 - That any necessary resources and approvals are acquired.
 - That the authors agree to deposit the accepted Stage 1 protocol, data, and materials in a public repository.
 - That the authors agree with the Withdrawn Registration policy.

Text:

- No information that would identify any of the authors is present.
- Sections appear in the following order: Introduction, Materials and Methods, and Pilot Data (where applicable).
- All pages are double spaced and numbered.
- No broken URLs are present in the text.
- No footnotes or appendices are present.

Separate [Title Page](#) Includes:

- Title (50 words maximum).
- Abbreviated title (50 characters maximum).
- Names and affiliations of each author.
- Author contributions.
- Corresponding author's name and email address.
- Funding sources.
- Conflicts of interest (if applicable).
- Acknowledgements.

Introduction:

- Word count is ≤ 750 .

Materials and Methods:

- Sex of subjects is stated (male, female, or of either sex).
- Companies or individuals (with full affiliations) from which unusual materials will be obtained are provided.
- Statistical method to be used is stated (descriptive and/or experimental design [random or nonrandom]).

Citations:

- Proper citation style for *eNeuro* is used.
- A reference is provided for each in-text citation, and *vice versa*.

Pilot Data:

- Optional. Can be included to establish proof of concept, effect size estimations, or feasibility of proposed methods. Any pilot experiments will be published with the final version of the manuscript and will be clearly distinguished from data obtained for the pre-registered experiment(s).
